Chapter I—Civil Aeronautics Board

[Civil Air Regs. Amdt. 41-8]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

APPLICATION OF CERTAIN REQUIREMENTS TO PILOTS DESIGNATED AS SECOND IN COMMAND

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 13th day of March 1953.

Part 41 of the Civil Air Regulations presently requires copilots to meet and maintain certain standards of proficiency in their duties. The only definition of copilot, however, is contained in § 41.137 (t), and this definition includes all pilots assigned as flight crew members, other than the pilot in command.

When Part 41 was first adopted on June 27, 1945, it made provision for three classes of pilots; "first pilot", "second pilot", and "pilot serving in a pilot capacity other than as first or second pilot". Separate levels of proficiency for each class of pilot were required by these

regulations. On April 28, 1949, Civil Air Regulations Amendment 41-3 was adopted with the intent of bringing Part 41 into accord with standards adopted by the International Civil Aviation Organization (ICAO) The history of that amendment indicates that no substantive change with respect to the maintenance of pilot technique was intended, and the various notices to the public indicated that the Board did not consider that substantive changes were being made except where specifically indicated. It is apparent that the substitution of "pilot in command" for "first pilot" and "copilot" for "second pilot" was intended to be an editorial rather than a substantive change. It has come to the attention of the Board, however, that certain of the above amendments are currently being interpreted as though a substantive change had in fact been intended.

Accordingly, it is considered advisable to amend Part 41 by qualifying the term "copilot" where appropriate, so as to preserve the original distinction between "second pilot" and "pilot * * * other than first or second pilot" This will be accomplished by substituting the term "second in command" in the pertinent sections of Part 41 which now contain the term "copilot", but which prior to April 28, 1949, contained the term "second pilot" A definition of "second in command" is added, and the definition of "copilot" is deleted.

Simultaneous with the above amendments it appears desirable to amend § 41.50, *Requirements for pilot route qualification.* The term "first pilot" was inadvertently retained in this section when it was amended on January 31, 1952, by Amendment 41-5. The term "first pilot" is now being replaced in this section with either "pilot in command" or "pilot" as appropriate.

Since these amendments are interpretive in nature and impose no additional burden on any person, notice and public procedure hereon are unnecessary and the amendments may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 41 of the Civil Air Regulations (14 CFR Part 41, as amended) effective immediately·

1. By amending § 41.48 (b) by deleting the word "copilot" and inserting in lieu thereof the term "second in command"

2. By amending § 41.48 (c) by deleting the word "copilot" and inserting in lieu thereof the term "second in command" in each of the two places where the word "copilot" appears.

3. By amending § 41.48 (d) by deleting the word "copilot" and inserting in lieu thereof the term "second in command"

4. By amending the first sentence of § 41.50 to read as follows: "The air car-

rier shall be responsible for insuring that each pilot is thoroughly qualified for the route over which he is to serve as pilot in command in scheduled air transportation."

5. By amending paragraph (e) of § 41.50 by deleting the word "first" in the second sentence thereof.

6. By amending § 41.51 (a) by deleting the word "copilot" and inserting in lieu thereof the term "second in command"

7. By amending § 41.52 by deleting the word "copilot" and inserting in lieu thereof the term "second in command" in each of the two places where the word "copilot" appears.

8. By amending § 41.53 by deleting the word "copilot" and inserting in lieu thereof the term "second in command"

9. By amending § 41.60 by deleting the word "copilot" and inserting in lieu thereof the term "second in command" in each of the three places where the word "copilot" appears.

10. By amending § 41.137 (t) to read as follows:

§ 41.137 *Definitions.* * * *

(t) *Second in command.* Second in command shall mean a pilot other than the pilot in command who is designated by the air carrier to act as second in command of an aircraft.

GOR 44—GENERAL EXEMPTIONS AND PRESERVATION OF RECORDS

TERMINATION OF PRICE CONTROLS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to General Overriding Regulation 44 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment exempts from price control all sales of all commodities and services, both in the Continental United States and in the territories and possessions. Thus this amendment is the last step pursuant to the President's direction to terminate price controls.

The termination of price controls does not affect the requirements regarding the preservation of records as to past transactions.

In view of the special basis and nature of this amendment, consultation with industry representatives, including trade association representatives, was impracticable and unnecessary.

AMENDATORY PROVISION

Section 1 of GOR 44 is amended to read as follows:

SECTION 1. *General exemption of commodities and services.* All sales of all commodities and services are exempt from price control.

Effective date. This Amendment 1 to General Overriding Regulation 44 is effective March 17, 1953.

PROPOSED RULE MAKING

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 210]

MANAGEMENT INVESTMENT COMPANIES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to amend certain rules of Article 6 of Regulation S-X (17 CFR Part 210) applicable to financial statements, of management investment companies other than those which are issuers of periodic payment plan certificates, required to be filed under the Investment Company Act of 1940, the Securities Act of 1933 and the Securities Exchange Act of 1934.

This proposal is made pursuant to authority conferred upon the Commission by the Securities Act of 1933, particularly sections 7, 10 and 19 (a) thereof, the Securities Exchange Act of 1934, particularly sections 12, 13, 15 (d) and 23 (a) thereof, and the Investment Company Act of 1940, particularly sections 8, 30, 31 (d) and 38 (a) thereof.

As a result of the Commission's experience with §§ 210.6–08 and 210.6–09 (Rules 6–08 and 6–09) it is deemed desirable to propose certain modifications thereof. Section 210.6–08 provides that companies reflecting assets at value may show the changes occurring during the fiscal period in the various capital and surplus accounts in a single statement in lieu of a separate statement of each class of surplus. Section 210.6–09 provides that open-end companies having only one class of outstanding capital securities may use a special form of statement in lieu of the statement of capital and surplus prescribed in § 210.6–03, captions 20 through 24, of Article 6. As presently drafted, § 210.6–09 prescribes the order in which information shall be presented under nine specified captions. It requires that the balance of undistributed net income be reflected in the analysis of net assets applicable to outstanding shares before showing the amount of unrealized appreciation or depreciation of assets. The proposed amendment to the rule has for its purpose the reversal of order in which these two captions appear in the analysis required by § 210.6–09. Further, the proposed rule would permit the use of the term "principal" in lieu of the term "capital" where appropriate. Certain technical changes, consistent with the proposed revision of § 210.6–09, are proposed in §§ 210.6–03–21 (a) (2) 210.6–04, 210.6–04 (b) 7, 210.6–07–2 and 210.6–08.

The proposed changes in Article 6 of Regulation S-X are as follows:

I. In order to segregate the effect of changes in undistributed net income from other changes in net assets the following amendments of § 210.6–08 are proposed:

Section 210.6–08 (b) (1) is amended by adding to the instruction the following sentence: "Show parenthetically or otherwise the balance of undistributed net income included in net assets at the beginning of the period."

Section 210.6–08 (b) (8) is amended by adding to the instruction the following sentence: "Show parenthetically or otherwise the balance of undistributed net income included in net assets at the end of the period."

Section 210.6–08 (b) is further amended by inserting the following general instruction immediately following § 210.6–08 (b) (8) "Captions (b) (3) to (6) inclusive, may be shown subordinate to a general caption 'Capital. If appropriate, the term 'Principal' may be used in place of this caption."

II. In order to provide a simple and self-explanatory title, to clarify the instructions and to distinguish more sharply between capital and income, it is proposed to restate § 210.6–09 as follows:

§ 210.6–09 *Statement of sources of net assets.* Open-end companies having only one class of outstanding capital securities may combine captions 20 and 21 (a) (1) of § 210.6–03, *provided* (a) the analyses prescribed by § 210.6–03–21 (b) are furnished and (b) other information comparable to that prescribed by captions 20 to 24 of § 210.6–03 is set forth in substantially the following form:

(1) *Capital.* If appropriate, the term *Principal* may be used in place of this caption.

(a) *Excess of amounts received from sale of capital shares over amounts paid out in redeeming shares.* State here or in a footnote the number of shares authorized, the number of shares outstanding, and the capital shares liability thereof. The information required by § 210.6–02–8 shall be given in a footnote or by reference to the statement of changes in net assets.

(b) *Aggregate distributions from capital sources.* See also § 210.6–07–1 (b).

(c) *Balance of capital paid in on shares.*

(d) *Accumulated net realized gain or loss on investments.*

(e) *Accumulated distributions of realized gain on investments.* The amount shown under this caption (e) shall be added to or deducted from caption (d) as appropriate to give a single total which need not be separately designated. See § 210.6–07–3 with respect to companies organized or most recently reorganized prior to January 1, 1925.

(f) *Unrealized appreciation or depreciation of assets.* See § 210.6–02–9.

(g) Total of captions (a) to (f), inclusive.

(2) *Balance of undistributed net income.*

(3) *Net assets applicable to outstanding shares.*

III. The qualifying parenthetical phrase (excluding gain or loss on investments) in the caption specified in § 210.6–09 (6) has been omitted in the comparable caption in the proposed amendment. The qualification has been interpreted by some as calling attention to the existence of additional income or loss, and by others as emphasizing the exclusion of such gains or losses from income. Since the rules require that all three elements of performance during the period be separately stated but assembled on one page, it appears appropriate to discard the qualifying phrase.

To accomplish this consistently throughout Article 6 it is proposed that the phrase "(excluding gain or loss on investments)" be deleted from §§ 210.6–03–21 (a) (2) 210.6–04, 210.6–04 (b) 7 and 210.6–07–2.

All interested persons are hereby invited to submit views and comments in

writing on the proposed amendments addressed to the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on or before April 16, 1953.

By the Commission.

REGULATION AND EXEMPTION OF VARIOUS FINANCIAL TRANSACTIONS

NOTICE OF PROPOSED RULE MAKING

The Securities and Exchange Commission announced today that on the recommendation of its Division of Public Utilities it was inviting public comment on its § 250.45 (b) (6) (Rule U-45 (b) (6)) under the Public Utility Holding Company Act of 1935 which regulates the allocation of federal income taxes among companies of a registered holding company system when a consolidated tax return is filed. This rule, which has been in effect since 1941, requires that savings resulting from consolidation be allocated among system companies in proportion to the amounts of taxes which would have been paid on a separate return basis. In recent months several holding companies have suggested various modifications of the rule.

In view of the complexity of the problem and the wide public interest in its effect, as well as the concern of the Commission that its rules fairly protect the public interest and the interests of consumers and investors, the Commission will receive comments on its present rule and recommendations for modification or change from all interested persons, including other State and Federal regulatory authorities. Copies of this release are being sent to each State utility commission, The National Association of Railroad and Utilities Commissioners, the Federal Power Commission, the Interstate Commerce Commission and the Federal Communications Commission, as well as to each registered company.

All comments should be received by April 15, 1953, and should be addressed to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C.

It is anticipated that upon receipt of these comments, a public conference may be held at which an opportunity will be afforded for oral presentation of views. Announcement of the date of such conference, if it is held, will be made at a later date.

By the Commission.

AUTHORIZATION FOR AIR TAXI OPERATORS TO CONDUCT OPERATIONS; EXTENSION OF EXPIRATION DATE OF AIR TAXI OPERATOR CERTIFICATES

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the issuance of a Special Civil Air Regulation in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by April 20, 1953. On January 11, 1952, the Board adopted Special Civil Air Regulation No. SR-378 which provides that air taxi operators, as defined in § 293.1 (a) (2) of Part 293 of the Economic Regulations, shall be certificated and shall conduct operations in accordance with the provisions of Part 42 of the Civil Air Regulations. Section 42.6 of Part 42 provides that air carrier operating certificates issued under that part shall expire one year from the date of issuance. In view of the fact that the current procedure for renewal of air taxi operator certificates issued under Part 42 has no effect on safety standards which cannot be achieved by periodic inspections of certificated operators, it appears desirable, in the interests of economy and convenience of applicants, to extend the expiration date of air taxi operator certificates to coincide with the expiration date of present Special Civil Air Regulation SR-378.

Accordingly it is proposed to rescind Special Civil Air Regulation SR-378 and to promulgate a new Special Civil Air Regulation to read as follows: "Notwithstanding the provisions of Parts 40, 41, and 61 of the Civil Air Regulations, any air taxi operator as defined in § 298.1 (a) (2) of the Economic Regulations shall be certificated and shall conduct operations in air transportation in accordance with the provisions of Part 42 of the Civil Air Regulations: *Provided,* That any air carrier operating certificate issued for air taxi operations shall remain in effect until the expiration date of this special regulation, unless such certificate is sooner surrendered, suspended, or revoked."

This regulation shall terminate on February 20, 1955, unless sooner terminated or rescinded by the Civil Aeronautics Board.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended, and may be changed in the light of comments received in response to this notice of proposed rule making.

MUSTARD SEEDS

TARIFF CLASSIFICATION

MARCH 16, 1953.

The Bureau, by its letter to the acting collector of customs, New York, New York, dated March 16, 1953, ruled that mustard seeds of the type chiefly used for propagation of plants producing vegetable greens are classifiable as other garden and field seeds not specially provided for under paragraph 764, Tariff Act of 1930, dutiable at the modified rate of 1½ cents per pound rather than as spice seeds (whole mustard seeds) under paragraph 781, dutiable at the modified rate of 7/8 cent per pound.

As this ruling will result in the assessment of duty at a higher rate than has been heretofore assessed under an established and uniform practice, it will be applied to such or similar merchandise only when entered, or withdrawn from warehouse, for consumption after 90 days from the date of publication of an abstract of this decision in a forthcoming issue of the weekly Treasury Decisions.

Office of International Trade

[Case No. 150]

ELIAS MOOS, INC., ET AL.

ORDER REVOKING AND DENYING LICENSE PRIVILEGES

In the matter of Elias Moos, Inc., Ernesto Moos, Marcel Saenger, 150 Nassau Street, New York, New York; respondents; Case No. 150.

This proceeding was instituted on December 13, 1951, by the transmission of a charging letter issued by the Investigation Staff, Office of International Trade, to Elias Moos, Inc., Ernesto Moos, and Marcel Saenger, officers of said company ("Moos") and others. The Moos respondents, after receiving the said charging letter, conferred through their counsel and officers of the company with officials of the Office of International Trade and thereafter submitted to the Office of International Trade, with the advice of and through counsel, a statement dated January 29, 1953, amended March 5, 1953, in which they admitted for the purpose of this compliance proceeding only the charges applicable to them in the said charging letter, waived all rights to a hearing thereon, and consented to the entry of an order, the terms of which are set forth below.

The other respondents named in the said charging letter, having previously admitted the charges applicable to them in said charging letter and in other charging letters not related to the instant proceeding, and having consented to the entry of an order denying their export privileges until December 13, 1954 (17 F. R. 8551-3) are no longer parties to the instant proceeding, the action against them having been severed from this proceeding upon the issuance of the aforesaid order.

The charges which the Moos respondents have admitted and to which they have entered their consent as aforesaid, are, in substance, that, acting by and through Ernesto Moos and Marcel Saenger, they violated the Export Control Act of 1949, as amended, and the regulations issued thereunder, in that, with knowledge that another hide firm (the other respondents named in the charging letter) had exhausted its quota allotment of hides for export under the quotas established by the Office of International Trade and was unable to obtain an export license to complete an order from its customer, the Moos respondents entered into an arrangement, in June 1951, with said other firm under which they agreed to permit, and did permit, for a consideration, said other firm to have the use and benefit of a validated export license issued by the Office of International Trade to Elias Moos, Inc., to enable said other firm to export hides from the United States to its customer in Japan; and

In pursuance of this arrangement, during June 1951, the Moos respondents applied to the Office of International Trade for an amendment of a validated export license previously issued to them authorizing the export of 5,000 Colorado heavy steer hides to their customer in Japan, in order to change the ultimate consignee named thereon from such customer to another company in Japan (for convenience referred to herein as Y Co.) which was the customer of said other firm. Later in June the Moos respondents submitted to the Office of International Trade a new application for a validated license, in lieu of said application for amendment (having returned said license to the Office of International Trade for cancellation) in which they sought, in their name, authority to export 5,000 Colorado heavy steer hides to the Y Co., and falsely represented on said application that they held an accepted order from the Y Co., for said 5,000 hides; and

In purported compliance with the export control regulations then applicable to the export of hides from the United States and in purported support of the new license application mentioned above, the Moos respondents filed with the Office of International Trade a fictitious ultimate consignee statement dated April 20, 1951, and a fictitious supplemental statement dated June 6, 1951, both of which had been fabricated by said other firm without the knowledge of the Moos respondents, and which ostensibly had been addressed to the Moos respondents by the Y Co. Actually however, the Moos respondents had received no statements, letters, or orders of any kind from Y Co., on the dates mentioned or at any other times; and

In reliance upon the representations and statements made by the Moos respondents in the application mentioned above, the Office of International Trade issued to said respondents a validated license on June 19, 1951, authorizing the export to Y Co., in Japan of the 5,000 Colorado steer hides described on said application. Thereafter, in June, respondents purchased from various domestic hide dealers an aggregate of 5,000 assorted type hides, only some of which were Colorado heavy steer hides, and said other firm exported or caused to be exported said 5,000 hides from the United States to its customer, Y Co., in Japan, under the purported authority of said license and under shipper's export declarations and bills of lading prepared by said other firm and executed by the Moos respondents, wherein said hides were falsely described as all Colorado steer hides.

The charging letter, evidentiary material relating to the charges set forth therein, and the aforementioned proposal for a consent order, as amended, have been submitted to the Compliance Commissioner for review in conformance with § 382.10 of the regulations. Upon the basis of such review, and upon the informal presentation of the facts, including extenuating circumstances claimed by the Moos respondents, at the conference with counsel for the Office of International Trade and with said respondents and their counsel, the Compliance Commissioner has found the charges to be supported by the evidence and has also found the terms and conditions of the proposed order as consented to by the respondents to be fair and reasonable, and he has recommended that such order be issued.

The Compliance Commissioner has pointed out that in making the recommendation he has taken into consideration the Moos respondents' reputation for integrity and reliability and that this is the only known instance where they have been charged with a breach of export regulations such as those here involved.

The findings and recommendations of the Compliance Commissioner have been carefully considered together with the charging letter, the evidentiary material and the entire record herein, and the proposal for a consent order, as amended. It appears therefrom that such findings and recommendations are in accordance with the evidence and that such recommendations are reasonable and should be adopted.

Now, therefore, it is ordered as follows:

(1) All outstanding validated export licenses held by or issued in the names of Elias Moos, Inc., Ernesto Moos, and Marcel Saenger, or any of them, are revoked and shall be forthwith returned to the Office of International Trade for cancellation.

(2) Respondents Elias Moos, Inc., Ernesto Moos, and Marcel Saenger are hereby denied and declared ineligible to exercise the privileges of participating directly or indirectly in any manner or capacity in the exportation of any commodity from the United States to any foreign destination under validated or general licenses. Without limitation of the generality of the foregoing, participation in an exportation shall be deemed to include and prohibit respondents' participation (a) in the filing of any validated export license application, (b) in the obtaining or using of any validated or general license or other export control document, (c) in the receiving in any foreign country of any exportation from the United States, and (d) in the financing, forwarding, transporting, or other servicing of exports from the United States.

(3) Except as hereinafter provided, such denial of export privileges shall extend not only to respondent Elias Moos, Inc., its officers, directors, and employees, and respondents Ernesto Moos and Marcel Saenger, but also to any person, firm, corporation, or business organization with which they, or any of them, may be now or hereafter related by ownership, control, position of responsibility or other connection in the conduct of trade involving exports from the United States or services connected therewith.

(4) Subject to summary withdrawal of the following exceptions to this order, without prior notice, at such time and under such circumstances as the Office of International Trade may deem warranted, the provisions of paragraph (3) of this order shall not be deemed to extend to or include Exportadora Ultramar de Produtos Animais, Ltda., Porto Alegre, Brazil, a company with which respondent Ernesto Moos is now employed in a position of responsibility in the conduct of trade involving exports from the United States, i. e., imports of commodities from the United States into Brazil; the terms and provisions of this order as they apply to respondent Ernesto Moos shall like-

wise be deemed suspended solely for the purpose of the performance of his normal duties within the scope of such employment and for no other purpose; and such terms and provisions of this order as aforesaid shall be deemed suspended as to said respondent Ernesto Moos for the limited period of such employment, or the expiration of this order, or the expiration of United States export controls, whichever occurs sooner. The foregoing exemption to Exportadora Ultramar de Produtos Animais, Ltda., is granted to prevent possible injury to the normal business transactions of said company and to avoid impeding its historical importations of commodities from the United States, as said company is reported to be a reputable import-export concern, has engaged in importations from the United States for many years and consequently respondent Ernesto Moos' employment with said company does not appear to be a device to circumvent or evade the provisions of this order applicable to respondents, or that said company is being used by respondents as an instrumentality therefor· and that the employment of respondent Ernesto Moos by said company should not act to prohibit the normal importations of commodities from the United States by said company.

(5) This order shall become effective on March 1, 1953, and shall extend for a period of eleven (11) months thereafter, or for the duration of export controls, whichever expires earlier: *Provided, however* That during the last six (6) months of such period the export privileges of said respondents which are denied by the terms of the order shall be restored to them without further order of the Office of International Trade, but no validated licenses which shall have been revoked and canceled under the order shall thereby be restored. In the event, however, that any of the respondents shall knowingly violate the terms of the order during the first five (5)-month period thereof, or knowingly violate any of the laws or regulations relating to export control at any time during the entire period of the order [eleven (11) months], the Office of International Trade may summarily and without notice to the respondent responsible for such violation, at such time as it shall determine that such violation has occurred, issue a supplemental order which shall deny to said respondent all export privileges for the said six (6)-month period of the order which has been held in abeyance, and revoke and cancel all validated licenses then outstanding and as to which said respondent may be a party, without thereby limiting the Office of International Trade from taking such other and further action based on such violation as it shall deem warranted.

(6) No person, firm, corporation, or other business organization shall knowingly apply for or obtain any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation from the United States under validated and general export licenses, to or for the respondents, or any person, firm, corporation, or other business organization covered by paragraph (3) hereinabove, without prior disclosure of such facts to, and specific authorization from, the Office of International Trade.

FEDERAL POWER COMMISSION

[Docket No. E-6482]

PACIFIC GAS AND ELECTRIC CO.

ORDER SETTING HEARING ON RATE TO SIERRA PACIFIC POWER CO. AND SUSPENDING RATE SCHEDULE

MARCH 12, 1953.

Pacific Gas and Electric Company (Pacific) on February 2, 1953, submitted a proposed supplemental rate schedule for filing, tentatively designated as Supplement No. 1 to its Rate Schedule FPC No. 3, increasing its rates or charges to Sierra Pacific Power Company (Sierra) by an estimated $419,400 (28.4 percent) for the year 1953. Unless suspended by order of the Commission, the proposed supplement will become effective April 6, 1953, the date requested by Pacific, pursuant to the provisions of the Federal Power Act and the general rules and regulations promulgated thereunder.

Under the present agreement which is to continue until July 1965, or for a period of 15 years after the in-service date of an additional 110 kv line which may be constructed pursuant to the agreement, Sierra now purchases approximately 40,000 kw of firm power and 4,000 kw of standby power from Pacific. Billing for the firm power is in accordance with a rate which is similar to Pacific's resale rate "P-31" and the standby service is billed at the rate of $30,000 per year. Pacific, by the proposed supplement, seeks to change this existing arrangement to the extent of substituting a higher resale rate which is similar to its resale rate "R" for the presently used rate in the determination of charges for firm power sold to Sierra.

The Public Utilities Commission of California, the Public Service Commission of Nevada and Sierra were invited to comment upon the proposed increase. The California Commission stated that Pacific had filed a similar application with it and refused comment at this time. The Nevada Commission by telegram dated March 2, 1953, stated that because of the present contractual arrangement between Pacific and Sierra it opposed any such increase in rates and requested a public hearing in the matter before any increase is granted. Sierra by letter dated March 7, 1953, indicated that it regards the rate contained in the proposed supplement as unreasonable and unjust and that, notwithstanding the fact that the rate contained in the present agreement might fail to provide as high a rate of return as the Commission might otherwise find to be reasonable, it is just and reasonable and not unduly preferential or discriminatory because of other considerations for the rendering of service, at the time the present agreement was entered into.

The change in rates and charges proposed by Supplement No. 1 may result in excessive rates or charges; may place an undue burden upon ultimate consumers; may be unduly discriminatory or preferential; and may result in increased rates and charges which have not been shown to be justified.

The Commission finds:

(1) The increased rates or charges proposed by Supplement No. 1 to Pacific's Rate Schedule FPC No. 3 may be unjust, unreasonable, unduly discriminatory or preferential.

(2) It is necessary, desirable and in the public interest that the Commission enter upon a hearing concerning the lawfulness of the rates or charges proposed by Supplement No. 1 to Rate Schedule FPC No. 3 and that said proposed rates or charges be suspended pending such hearing and decision thereon.

The Commission orders:

(A) A public hearing be held commencing April 6, 1953, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the lawfulness of the rates or charges provided for in Pacific's proposed Supplement No. 1 to its Rate Schedule FPC No. 3.

(B) Pending such hearing and decision thereon, the proposed Supplement No. 1, referred to in paragraph (A) above, be and the same is hereby suspended and the use of the rates or charges provided therein deferred until September 6, 1953, and may not be applied to any deliveries of energy prior to that date, unless otherwise ordered by the Commission. Thereafter such proposed supplemental rate schedule shall go into effect in the manner prescribed by the Commission in accordance with the Federal Power Act.

(C) During the period of suspension, the rates or charges heretofore in effect under Pacific's Rate Schedule FPC No. 3, on file with the Commission, shall remain and continue in effect.

(D) At the hearing ordered herein, the burden of proof to show that the proposed increased rates or charges are just and reasonable and not unduly discriminatory or preferential shall be upon the Company.

(E) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's general rules and regulations (18 CFR 1.8 and 1.37 (f))

Date of issuance: March 13, 1953.

SOUTHERN TIER GAS CORP.

ORDER SUSPENDING PROPOSED RATE SCHEDULES

MARCH 12, 1953.

On February 13, 1953, Southern Tier Gas Corporation (Southern Tier), tendered for filing its Second Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1, proposing to increase its rates for the sale of natural gas to the Village of Bath, New York, by 4.6 cents per Mcf, or $9,800 annually, based upon estimated sales for the year 1953. The increase is proposed to become effective on March 13, 1953.

Southern Tier bases its proposed increase in rates and charges, among other things, upon increased cost of gas purchased from its supplier, New York State Natural Gas Corporation, whose increased rates have been suspended by order of the Commission issued February 12, 1953, in Docket No. G-2119.

The increased rates and charges proposed in said Second Revised Sheet No. 4 to Southern Tier's FPC Gas Tariff, Original Volume No. 1 as tendered for filing on February 13, 1953, have not been shown to be justified and may be unjust, unreasonable, or otherwise unlawful.

The Village of Bath has protested the proposed increase in rates and charges. The New York State Public Service Commission questions whether Southern Tier has any immediate need for an increase in its rates.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of Southern Tier's FPC Gas Tariff, Original Volume No. 1, as amended by said proposed Second Revised Sheet No. 4, and that said Second Revised Sheet No. 4 be suspended as hereinafter provided and the use thereof deferred pending hearing and decision thereon.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of the rates, charges, and classifications contained in Southern Tier's FPC Gas Tariff, Original Volume No. 1, as amended by said proposed Second Revised Sheet No. 4.

(B) Pending such hearing and decision thereon, Southern Tier's Second Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1, be and the same is hereby suspended and the use thereof deferred until August 16, 1953, unless otherwise ordered by the Commission, or until such further time thereafter as said proposed Second Revised Sheet No. 4 may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: March 13, 1953.

By the Commission.

IRON AND STEEL MILL INDUSTRY

WITHDRAWAL OF REQUEST AND TERMINATION OF VOLUNTARY AGREEMENT FOR STABILIZATION OF PRICES

Pursuant to sections 402 and 708 of the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.) and sections 401 and 701 of Executive Order 10161 (15 F R. 6105) the Economic Stabilization Agency requested the members of the iron and steel mill industry to make no increase in the price of a specified list of steel mill products over the price in effect on January 15, 1951 without first giving notice to the Economic Stabilization Agency twenty days in advance of the effective date of such increase. Notice of this request was published in the FEDERAL REGISTER on January 20, 1951 (16 F. R. 555) By letters dated January 15, 1951 every known member of the industry received a similar request from the Economic Stabilization Agency and an additional request that, as an indication that each member joined in this voluntary action of the industry, a copy of the letter of request be signed by each member and returned to the Economic Stabilization Agency. Substantially all of the members of the industry complied with this letter and returned a signed copy to the Economic Stabilization Agency.

This withdrawal of the request and termination of the agreement is part of the program in compliance with the President's direction for orderly termination of price controls by April 30, 1953.

The Director of Price Stabilization hereby withdraws the Request for Stabilization of Prices (16 F. R. 555) and terminates the voluntary agreement with the members of the iron and steel mill industry.

A copy of this withdrawal and termination has been furnished to the Attorney General and to the Chairman of the Federal Trade Commission.

JOSEPH H. FREEHILL,
Director of Price Stabilization.
